

## Catholic Classical Education

---

St. Michael School offers a Catholic Classical Curriculum, a successful method that is historically based and rooted in the Catholic faith and tradition. Classes are naturally integrated so students see the relationships between what they are currently learning, giving them a greater understanding and foundation in all subjects. Students excel in the classical method because it builds on their natural intellectual curiosity and development. The focus is on students becoming responsible citizen-leaders of the world who continue to grow in wisdom and knowledge while retaining a love of learning throughout their lives.

## Our Faculty & Staff

---

Our experienced and qualified faculty and caring staff are dedicated to their charge of providing a safe and nurturing environment in which our students can excel.
